PROJECT LOCATION

_____
_____

SCOPE OF WORK

Forestry mulching and brush clearing for approximately **2 acres** along the right fence line, beginning from the front portion of the property and clearing through to the rear property corner, as discussed during the site visit.

Work will include:

- ✔ Grinding and mulching brush, saplings, and small trees
- ✔ Vegetation reduction to ground level
- ✔ Creation of a natural mulch layer from processed vegetation
- ✔ Clearing access through the designated area

Mulching leaves behind organic ground cover, helping reduce erosion and future regrowth.

Property Overview — Satellite View

PROJECT PRICING

SERVICE	QUANTITY	RATE	TOTAL
Forestry Mulching	2 Acres	$2,000 / acre	**$4,000**

Subtotal	$4,000
Sales Tax	TBD
Total	**$4,000 + tax**

PROJECT TIMELINE

- **Estimated duration:** 1 – 2 working days
- Timeline may vary depending on vegetation density and site conditions.
- Current scheduling availability is approximately **1.5 weeks from approval**, though work may begin sooner if equipment availability allows.

NOTES

- Property owner should disclose any buried debris, fencing, wire, or metal materials prior to work beginning.
- Areas outside the agreed clearing zone are not included in this estimate.

- Additional areas (including the left fence line) can be quoted separately if requested.
